The waltz and two-step are popular and enjoyable dance rhythms for couples of all ages. The steps are taught in a natural sequence so dancers will feel comfortable with the learning experience.

This is a fun evening for dancing with your partner and learning new steps together. All dances are cued at your skill level to lead you through the steps as the music plays.

The dance steps are well-suited to social dancing and popular music. This is the best way to learn dance steps and sequences.
